KITCHEN GUIDE 2021/22

# THE JEWSON DIFFERENCE.

Family life revolves around the kitchen. From early morning breakfast to late-night laughs and last-minute homework. That's why for over 30 years, Jewson has refined its kitchen offering to provide an unbeatable one-stop-shop for both trade and public. Whatever your dream kitchen looks like, Jewson has a huge range of kitchens and accessories to suit every budget and taste.

### QUALITY CRAFTSMANSHIP

There's no compromise on quality. Our entire range is as stylish as it is durable. All our kitchens and related accessories will withstand daily life and then some. In fact, we're so confident in the quality of our products, our kitchens come with up to a 10-year guarantee.

### FREE DESIGN CONSULTATION

To help you get the most out of your kitchen and budget, we offer free design consultations with our Design Consultants. They will take the time to understand your requirements and design a kitchen that suits your budget and needs.

### KITCHEN SHOWROOMS

See what your dream kitchen looks and feels like in one of nearly 50 kitchen showrooms nationwide. Find your nearest at [jewsonkitchens.co.uk](http://jewsonkitchens.co.uk)

### BUILD AVIATOR

The pressures of estimating a project can be time consuming and difficult. Build Aviator offers the most effective and comprehensive estimating service available. It provides an accurate and efficient estimate of materials, labour and plant tool hire required, using products that are locally available. This service is extremely beneficial for new-build projects, extensions and existing conversions.

For more information visit [jewson.co.uk/buildaviator](http://jewson.co.uk/buildaviator) or call 03333 321502.

## PLANNING 6

We've put three simple steps together to help you make your dream kitchen a reality.

## MODERN 18

Sleek surfaces and sumptuous curves define the visual language of our Modern collection.

## CLASSIC 46

The pure elegance of our Classic collection incorporates the very best of what the shaker and traditional collections have to offer.

## HANDLES AND DOORS 68

Choose from a range of doors and handles to complete your look and complement your kitchen.

## COMPLETING YOUR KITCHEN 82

Select from a wide range of finishing touches to create your perfect kitchen and make a real design statement.

Whether you're planning a kitchen refresh, starting again with the family in mind, or building from scratch, follow these three simple steps to make your dream kitchen a reality.

## 1. RESEARCH & PLANNING

### INSPIRATION

Inspiration is everywhere – and not just in kitchens. Look on Instagram, Pinterest and in magazines. Take photos in restaurants, friend's kitchens and in shops. If you see something you like, save it and make a mood board (Pinterest is a great online tool for this).

Download the Instagram app or view online at [instagram.com](https://www.instagram.com)

Make an online inspiration board at [pinterest.com](https://www.pinterest.com)

View our range of kitchens at [jewsonkitchens.co.uk](https://www.jewsonkitchens.co.uk)

### SET YOUR BUDGET

The early stages of planning your dream kitchen are exciting and understandably so. But it's important to start with both feet on the ground – with a budget. Have a number in mind and stick to it.

### HIRE A LOCAL BUILDER

Fitting a kitchen can be tricky, which is why we highly recommend finding a local tradesperson. Their knowledge and expertise will be invaluable.

If you need help finding a professional kitchen fitter ask friends and family, use a recommendation site such as [checkatrade.com](https://www.checkatrade.com) or visit [bikbbi.org.uk](https://www.bikbbi.org.uk) for fitters registered with the British Institute of Kitchen, Bedroom and Bathroom installation.

### MEASURE

If you enlist the help of a tradesperson they will do this for you – if not, measure the space your kitchen currently takes up and where it could expand into. Don't forget to measure doors, walls and windows too. The more measurements you take, the better equipped you are to design a kitchen that suits your specific needs.

**TIP.** Note the position of the plumbing and electrical points. Their location will be the key to planning the layout of your kitchen.

**EMERGING  
KITCHEN  
TRENDS**

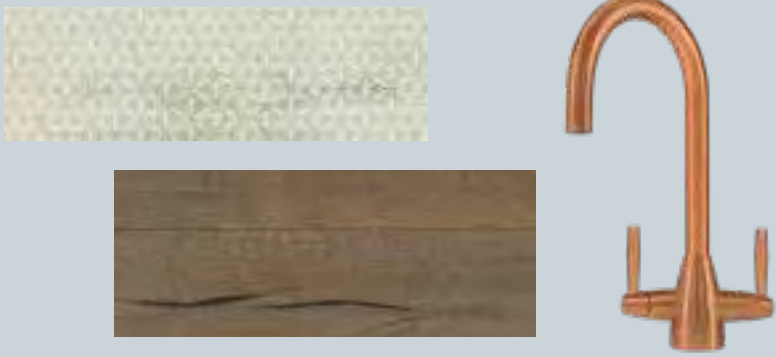

**ELEGANT  
MARBLES**

This look is no longer about pure white and monochromatic schemes. New modern styles add warmth through neutrals in shades of blush, cashmere and porcelain that can be married with pale marbles and linen textures. For uncluttered simplicity, opt for handleless cabinets, slim profile surfaces and keep the view clear with appliances that retract or fit flush.

**NATURAL  
HERITAGE**

Choose an in-frame timber door or a crisp skinny shaker and match with fresh tones and warm metallic details for a modern yet calm take on the traditional classic style. Textured timbers and bright surfaces showcasing a natural, handcrafted feel complete this light yet luxurious look.

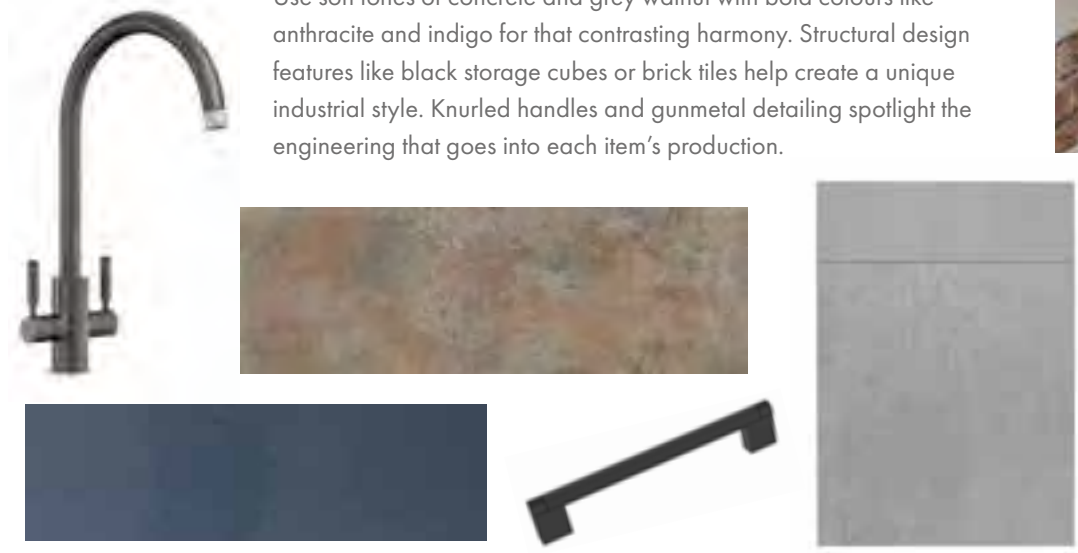

**THE GREAT  
INDOORS**

Extend the relaxing tones of your garden into your kitchen for a seamless transition between outdoor and indoor living spaces. Use earthy tones of sepia, clay and ochre with natural greens, bronzes and timber materials that allow the woodgrain to flourish.

**INDUSTRIAL  
REVOLUTION**

Use soft tones of concrete and grey walnut with bold colours like anthracite and indigo for that contrasting harmony. Structural design features like black storage cubes or brick tiles help create a unique industrial style. Knurled handles and gunmetal detailing spotlight the engineering that goes into each item's production.

## LAYOUT

When redesigning your kitchen, think about how you move around it. Where do you plan on having the fridge, sink and cooker? These are the three areas you use the most, therefore it's good to apply the Triangle Concept to your kitchen.

The Triangle Concept is easy to implement. You simply place the fridge, sink and cooker in locations that form the shape of a triangle. Spacing them out equally will allow easy, seamless access to each. It doesn't matter if your kitchen is a galley, U-shape, L-shape or open plan. The Triangle Concept still applies.

## 2. CONSIDER & SPECIFY

What will give your kitchen the wow factor?  
Creative use of lighting? Underfloor heating?  
Top of the range accessories and appliances?  
This is where you need to think about those finishing touches.

View our range of kitchen accessories, including flooring and heating, at [jewsonkitchens.co.uk](http://jewsonkitchens.co.uk)

### LIGHTING

The lighting you choose will define your kitchen. It can set the mood or become a feature. Think about what you want your lighting to do. Be a focal point? Light a workspace or simply illuminate a room low on natural light?

### WALLS & FLOORS

Walls and floors are a canvas to add your personality. We have a wide selection of flooring options including: hardwearing tiles, luxurious underfloor heating, natural wood and the all-round brilliance of new vinyl technology.

### PLUMBING AND HEATING

The positioning of your plumbing and electrical points will define where your cabinets and appliances are located. Moving the sink for example is possible, but may impact your budget.

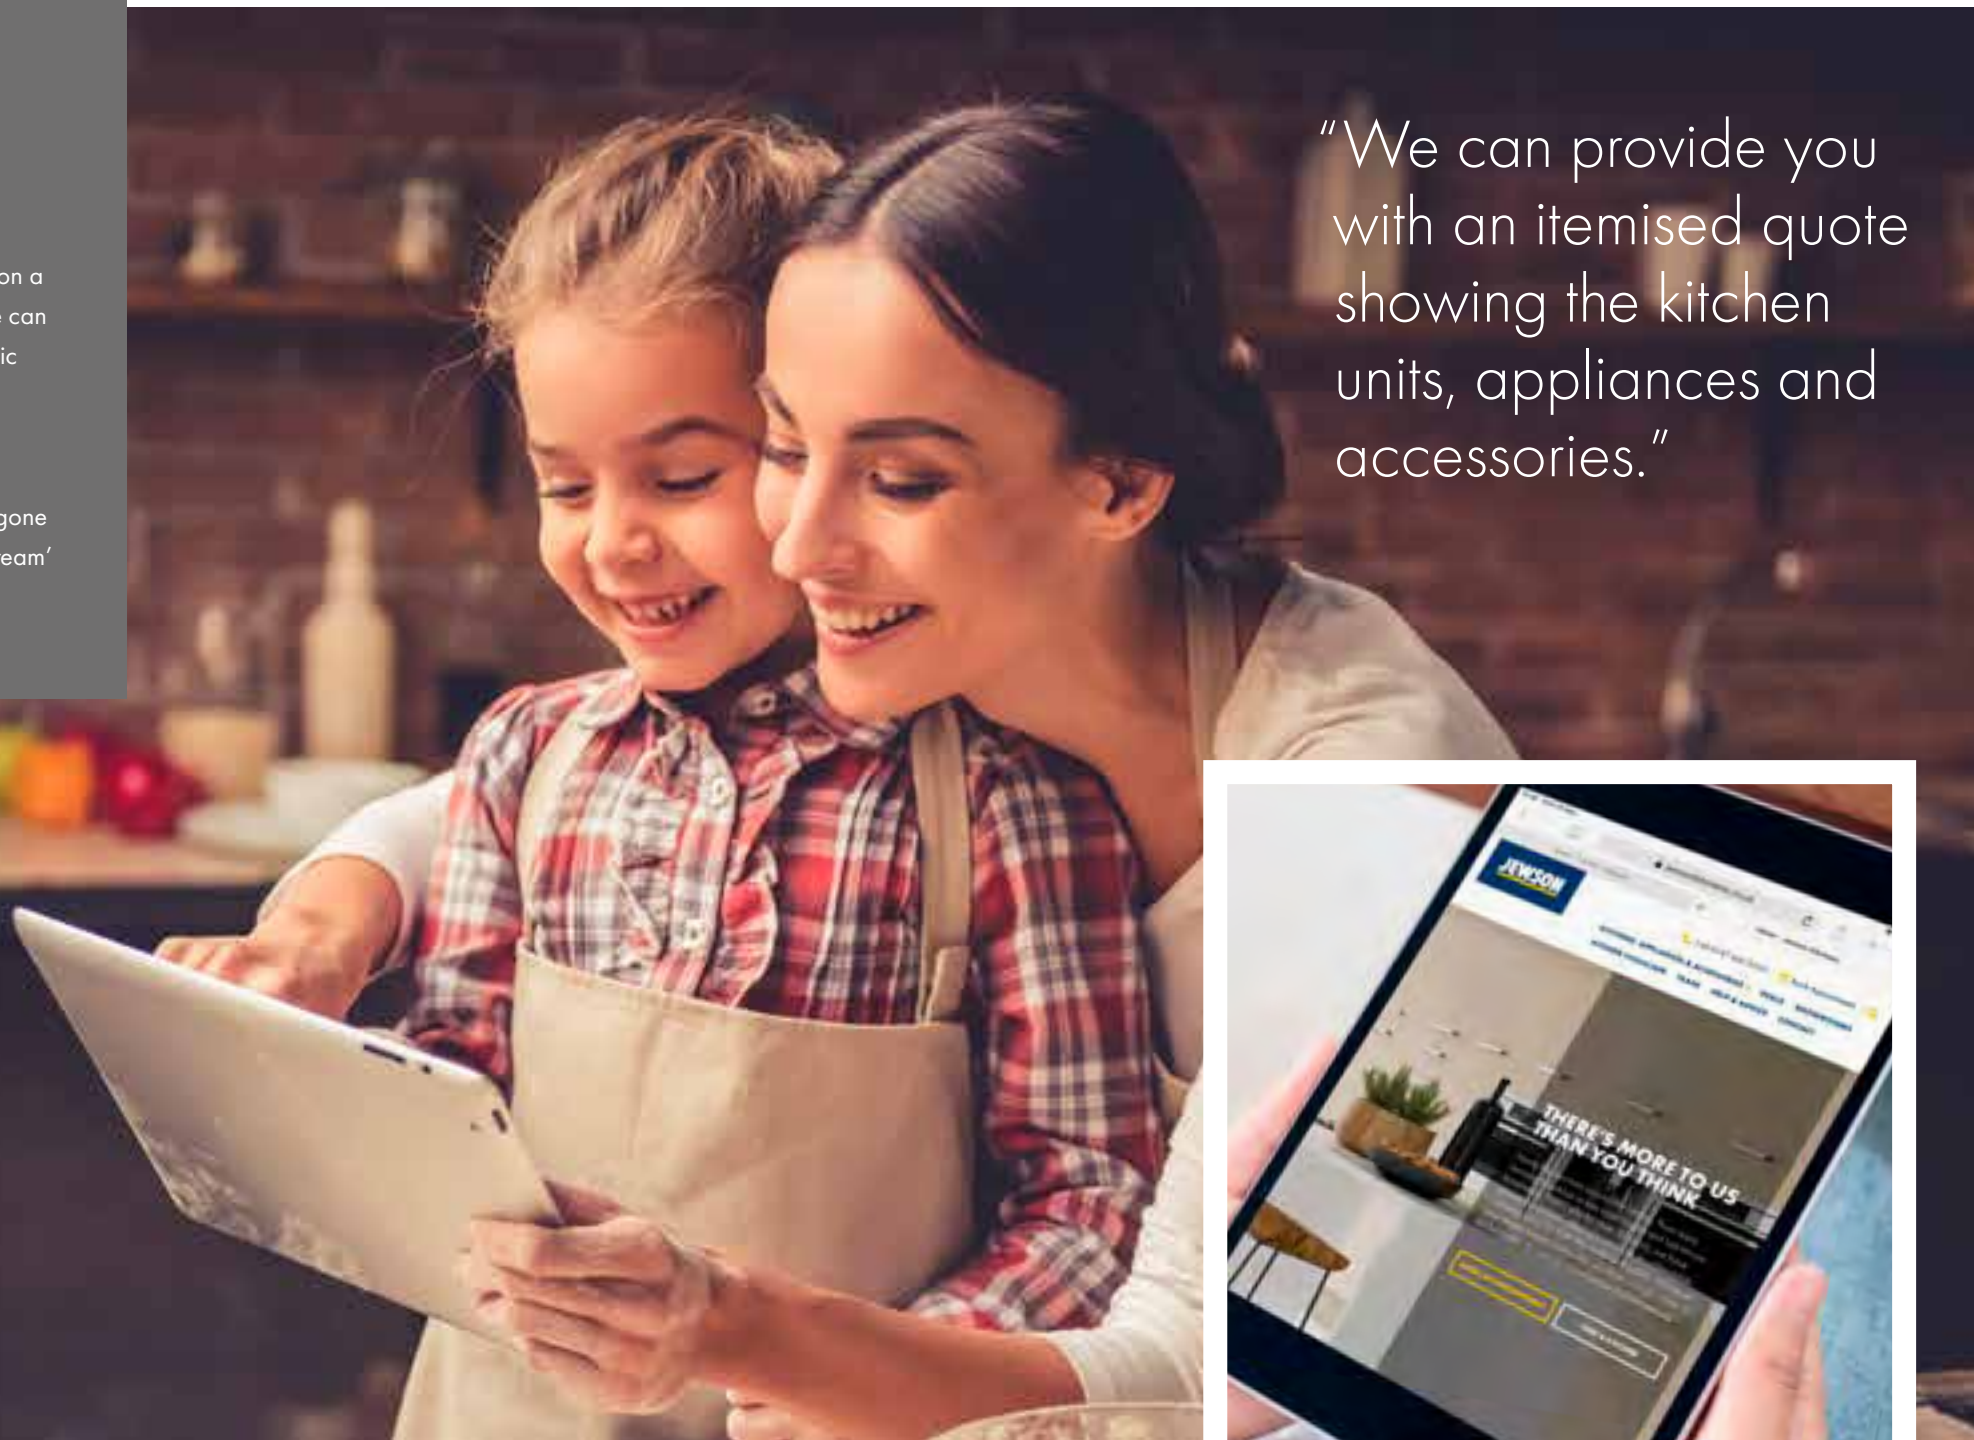

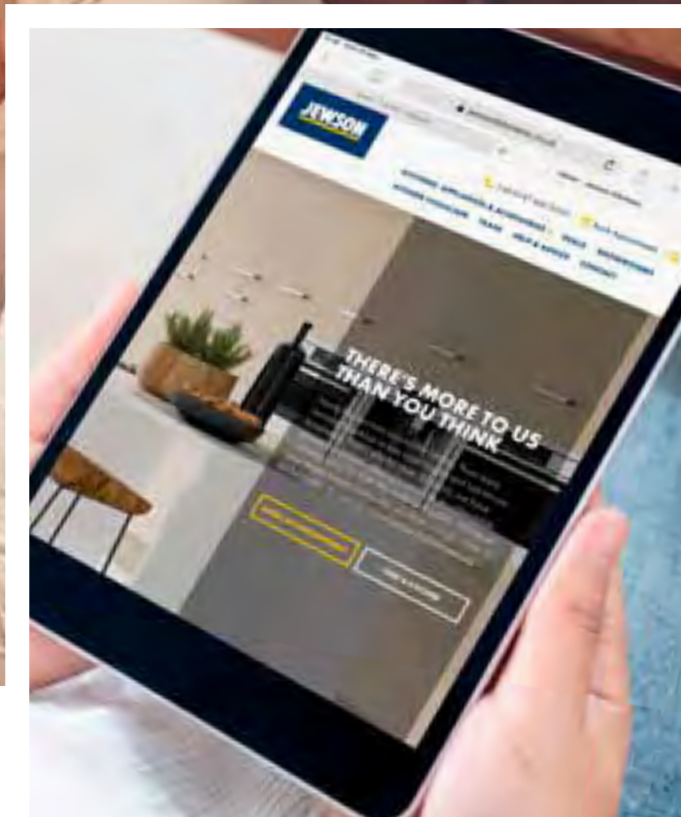

### 3. DESIGN & QUOTE

Once you have your measurements, decided on a layout and picked a style and accessories, we can bring your idea to life in a 3D, 360° panoramic visual. This will give you an idea of what your kitchen will look like and how you will use it

**TIP.** Refer to your original budget. Have you gone overboard or is there budget to add in that 'dream' accessory you originally ruled out?

"We can provide you with an itemised quote showing the kitchen units, appliances and accessories."

#### FREE DESIGN CONSULTATION

If you'd like a helping hand in the design, layout and styling of your kitchen, we can provide you with your own personal Design Consultant. They can help you every step of the way. Starting with a visit to your home, they will take measurements, discuss your budget and take the time to understand your wants and needs for the working space. Alternatively, they can work from photographs you supply and provide a remote virtual design consultation.

The next step will be to produce a CAD drawing and high-quality 3D renders of your kitchen, to help you visualise the space. At this stage, your Design Consultant will talk you through current trends and styles, as well as samples to make sure individual aesthetic and practical considerations are all catered for. Once you have decided on your dream kitchen, they will work with you and your kitchen fitter to make the whole process as seamless as possible.

#### DIRECT TO YOU

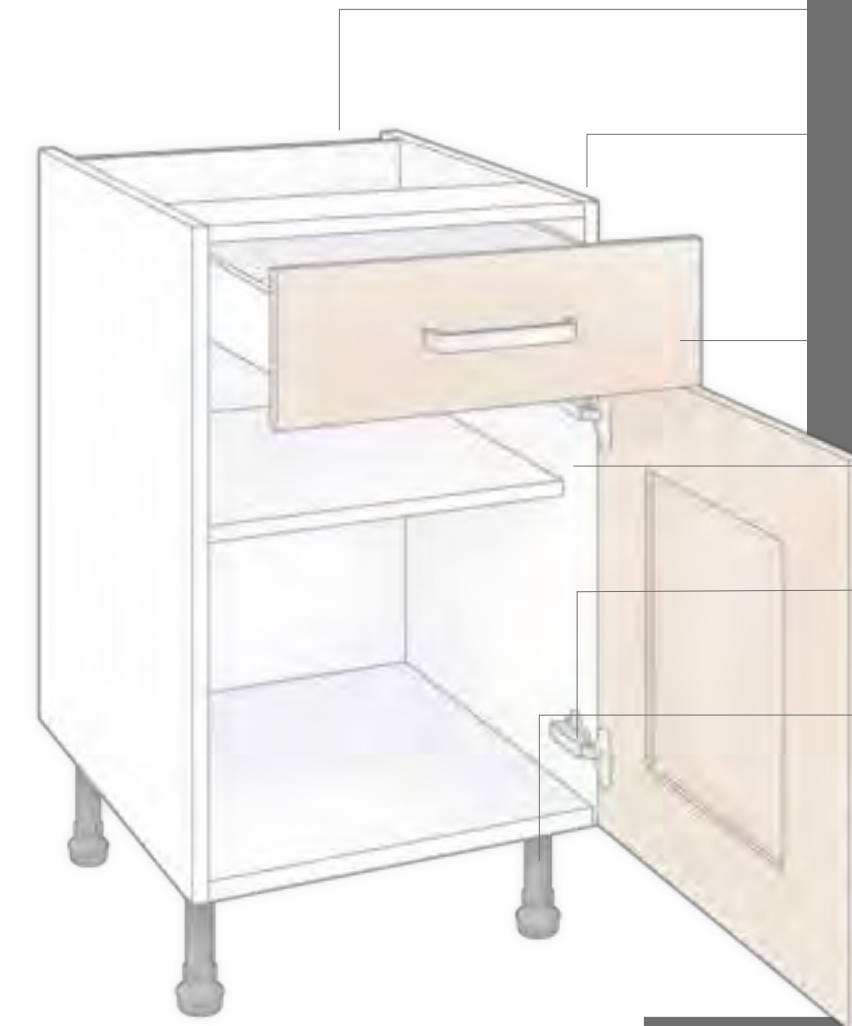

Many of our kitchens are available with free delivery, with those nifty little gadgets and finishing touches available for collection from your local Jewson branch.

## BY DESIGN

### OUR KITCHENS

A perfect blend of style and luxury, the By Design collection makes choosing your dream kitchen effortless. The kitchens in the By Design collection are available as self-assembly; ready assembled; or ready assembled premium, with soft-close doors and drawers included as standard. The By Design collection has a kitchen style to suit every home, from classic timber framed to our modern selection for a more adventurous, contemporary look.

66mm void and 3mm removable back panel provides easy installation.

18mm cabinet and shelves in a choice of colours. Certain ranges can also be supplied with cabinet sides to match door colours at no extra cost, eliminating the need for end panels.

Fully extendable and adjustable soft-close Atira metal drawer box.

Internal depths of 265mm for standard wall units and 495mm for base units.

Three-way fully adjustable soft-close all metal clip-on hinges.

Adjustable feet with clip-on plinth with optional dust seal.

#### UPGRADE:

Oak drawer boxes available as an upgrade on classic ranges.

#### PREMIUM UNITS:

15mm back panels on base and 8mm on wall units for excellent rigidity. Robust PVC edging on all cabinet and shelf fronts in a range of complementary colours.

Internal depths of 305mm for premium wall units.

# MODERN

Whether you prefer sleek, seamless sophistication or eclectic industrial chic, our modern collection can cater for your personal style. Contrast textures and materials, sultry tones and luxe metallics, for a contemporary kitchen that's bang on trend.

## SMART APPLIANCES

**Home Connect** Allows you to control your appliances remotely. Let nothing get in the way of your cooking ideas with innovative appliances.

### OVEN FEATURES

**Slide&Hide®** The only oven door that slides away under the main cavity, giving you more space in your kitchen allowing easier access to baste, taste and monitor for even tastier results.

**CircoTherm®** Hot air technology ovens can cook up to four dishes across different levels and everything will come out tasting as it should. Precise and even cooking has never been easier.

**Pyrolytic Self-cleaning** This function does the hard work for you so cleaning up those little spills won't eat into your dining time. From bubbled over cheese to sizzling joints of meat, spatter and spillages are turned to dust so you can effortlessly wipe away any residue once the oven has cooled.

**EasyClean®** The quick and easy option for day-to-day maintenance.

### HOB FEATURES

**CombiZone** Allows you to combine zones for a larger cooking area.

**FlexZone** Heats your pans wherever you place them on the hob.

**FryingSensor** Ensures nothing burns while **PowerMove** allows complete control over temperatures to boil, simmer or keep warm as required.

### HOOD FEATURES

**LED Illumination** Clear illumination whilst cooking thanks to the energy-saving LED lights.

**Intensive Setting** Adjusts extraction speed as steam gets intense.

**TouchControl** Adjustments can be easily made with just one finger.

**N50 Single Oven**  
Slide&Hide® with CircoTherm®, pyrolytic and EasyClean programmes and Home Connect B6ACH7HHOB

# RANGEmaster

## COOKING APPLIANCES

With a Rangemaster at the heart of the kitchen, your kitchen will always be the heart of your home. With the right mix of quality, performance, choice, features and design and over 700 options to choose from, it's no wonder you will find us in more homes than any other range cooker brand.

Rangemaster is the world's oldest range cooker manufacturer and we are proud to say that all of our 90, 100 and 110 range cookers are still manufactured at our British manufacturing plant, in Royal Leamington Spa, where the very first range cooker was built back in 1830.

Our ranges are available in:

### Gas

Giving you instant and controllable heat that keeps food moist while roasting.

### Dual Fuel

The most popular choice with the responsiveness of a gas hob and the flexibility and even heat of an electric oven.

### Induction

Fast, responsive and incredibly controllable while being highly energy efficient, with a wealth of safety features and easy clean surface.

### Ceramic

Impressive heat up times, responsive controls and a clean, seamless surface easy to maintain.

### 60cm Ovens

For all the benefits of a Rangemaster cooker, but in a smaller package, our 60cm free-standing cooker collection is the perfect solution.

## COOKING APPLIANCES

### LIFE TASTES EVEN BETTER WITH A BOSCH BUILT-IN OVEN

#### 3D Hot Air

Sleek and cool on the outside, Bosch built-in ovens feature 3D Hotair, distributing heat precisely on up to 3 levels so you can achieve perfect results on each level simultaneously.

#### Pyrolytic Cleaning

At last, something in the kitchen that cleans itself. Cleaning your oven can be a tough job but there's no need to spend hours scraping away any more. Bosch have created ovens that clean themselves so they do all the hard work while you get on with life.

### SAVE TIME AND ENERGY WITH A BOSCH BUILT-IN INDUCTION HOB

**TouchControl** will get you frying and boiling even faster. with a selection of innovative functions.

**QuickStart** tells the hob which cooking zone the pan is on, so you just have to choose the temperature.

**PowerBoost** gives your hob up to 50% more power for faster heating. With an easy wipe clean surface, it's not just induction cooking that's energy saving.

### CLEAN AIR AT YOUR FINGERTIPS WITH A BOSCH BUILT-IN HOOD.

Bosch have developed a range of low-noise, powerful hoods to make sure your kitchen has the perfect cooking environment.

**TouchSelect** offers quick and easy control. And with an extraction rate of 700 m<sup>3</sup>/h, you'll be enjoying clean air in no time, no matter how large the room.

## TECHNOLOGY

The smartest kitchens will truly make your life easier with connectivity and ergonomics at the forefront of design trends. From ovens you can operate from your armchair, to dishwashers you can load without bending down, technology can take the backache out of a busy life. And, whether your favourite tippie is a skinny cappuccino or a Cabernet Sauvignon, we can help you choose tech to let you sit back and enjoy.

### Built-in Bean To Cup Coffee Machine

Grinds beans to preferred texture. Programmes for variable size, strength, milk/foam volume, steam temperature. Timer setting makes your drinks at a set time. CM465000

### N90 Slide&Hide® Combi Oven

Features CircoTherm® hot air, FullSteam® sous-vide cooking and MultiPoint meat probe. HomeConnect controls the oven via Wi-Fi. B48FT78HOB

### In-column Triple Zone Wine Cabinet

Three independent zones store up to 89 bottles of wine and champagne. Easy slide shelves and vibration-free motor ensure wine remains in perfect condition. WC1796

## RANGEmaster

### Geo Trend 4-in-1 Tap

Dispenses hot, cold, 98° and filtered water. Smart, safe and efficient with Child Safe HotFob™ and anti-scale technology. GEO4

## HAFELE

### Wireless Phone Charger

Charge smartphones and tablets without being tethered. Recess mounted for minimal surface disruption. Can be installed into any worksurface. HAFE0442

## VELUX

### INTEGRA®, NETATMO & ACTIVE

NETATMO smart sensors monitor temperature, humidity and CO<sub>2</sub> and automatically adjust VELUX INTEGRA roof windows, blinds and shutters for a healthier indoor climate. VELUX ACTIVE can also operate your INTEGRA products from your smartphone or tablet device as well as being compatible with Apple HomeKit.

# LIGHTING

Gone is the neon strip light that adorned every kitchen ceiling. Today's kitchens aren't complete without varied lighting selected to create specific zones. Well-lit worksurfaces will aid your culinary masterpieces while feature lights can be positioned to provide a relaxed, ambient dining area. Plinth lights elevate the design of your new kitchen to sophisticated heights.

**SINKS & TAPS**

All Rangemaster stainless steel sinks are manufactured with Micro-Sheen™ for a lustrous finish. From the traditional to the contemporary, you'll find the perfect combination to complement your kitchen.

Igneous granite sinks have been specifically developed for extreme scratch resistance and incredible resilience to high temperatures. Incorporating 80% quartz particles mixed with acrylic, this material provides an excellent inherent strength and stands up well to UV damage. These sinks are available in a range of colours including crystal white, stone, dove grey and ash black.

Rangemaster ceramic sinks are fashioned from fireclay, fired at extremely high temperatures to provide superior strength with a stunning high-gloss finish. The range includes inset and undermount sinks as well as traditional Belfast models, and selected items are now also available in the latest Anthracite finish.

Rangemaster taps can operate on as little as 0.2 bar pressure, from everyday essentials like Aquavibe to the stylish Intense tap. Available in on-trend finishes like brushed copper and matt black, there are many options to suit your kitchen. The Aquatrend comes in chrome or brushed finishes, in single and dual lever formats, with or without a pull-out spray option.

## SINKS & TAPS

As practical as they are, the sinks and taps that you choose can also make a powerful design statement – today’s choices are both fashionable and functional. Sinks in soft white ceramic, practical granite, luxurious glass or clean stainless steel. Taps from our design-led collection, for all tastes and budgets.

### Stainless Steel Sinks

Stainless steel has been the automatic choice for professional cooks over many years. Why not make it yours? It is tough, resilient and highly practical – and in this range of styles and shapes it looks sensational too. Choose from inset sinks with drainers or individual and multiple bowls.

### Dual Control Taps

Classic does not mean old fashioned. For many of us dual control taps are a matter of personal preference. Hot on the left, cold on the right. It’s as simple as that.

### Single Control Taps

Single control or single lever taps have been with us for a long time now. It is testimony to their ease of use and adaptability to great design.

## CHOOSING YOUR WORKTOP

We understand that buying a worktop can be a daunting task, but your Design Consultant will help you make the best choice to suit your budget and lifestyle. We offer an extensive range of worktops from laminate to granite in all the latest designs and textures to cover all tastes and pockets. Make sure you ask your Design Consultant to see the full range available.

### Laminate

Laminate worktops are the most versatile, easy to maintain and affordable worksurface you can buy. Fabulous designs and stunning textures mean there is no compromise on style and quality with this incredibly versatile and practical material. Our range includes coordinating decorative panels and splashbacks.

### Solid Wood

Solid wood worktops are an investment in timeless quality and natural beauty. Crafted from the finest quality hardwoods, you can always be confident about their durability. Pre-oiled oak worktops in clear or stained options provide a practical solution that minimises installation time and offers a chic colour palette.

### Compact & Solid Surfaced

We have a number stylish and durable options for those looking for a solid surface look without the expense, all of which can be installed by your kitchen fitter on site.

Vista Summer Palm Splashback

## LAMINATE WORKTOPS

There's a reason why 85% of new kitchens still use laminate worksurfaces. Fabulous designs and stunning textures available from all the leading brands provide style and quality within a budget, allowing you to stamp your personality on your new kitchen. It also boasts being hard wearing, easy to clean and scratch resistant. These worktops make incredibly realistic and durable substitutes for much more expensive surfaces, such as; granite, marble, stone, quartz or wood. It is often impossible to tell the difference between a laminate surface and the real thing.

Vista kitchen splashbacks make a great style statement behind a sink or hob area and offers a stunning and speedy alternative to tiles. Add a touch of panache to your kitchen with bold bright colours or geometric shapes.

### Great Value

No question, in terms of cost per metre, laminate worktops offer the best value for money.

### Durable Material

Laminate worktops are extremely hardwearing and highly resistant to scratches, cracks and stains.

### Hygienic Properties

Compared to other more expensive kitchen worktop materials, including hardwood timber and many stones, laminate is one of the most hygienic surfaces you can choose.

### Vast Choice

As a man-made material, laminate is available in an incredible range of colours and finishes, so you're bound to find a worktop to complement the style and colour scheme of your new kitchen.

### Low Maintenance

Laminate worktops require next to no looking after – a simple wipe with a cloth and some household cleaner is all that's needed to keep your worktop looking spick and span.

Visit one of our showrooms to see the full breadth of laminate worktops from Bushboard, Duropal and Formica.

## BY DESIGN

### LAMINATE WORKTOPS

Durable and with easy-clean technology, By Design laminate worktops are available in a selection of classic granite and timber style colours, on trend mineral, concrete and terrazzo style finishes and elegant modern metallics. In three formats, 40mm post-formed an PVC edged, slender profile 22mm PVC edged, and premium 40mm post-formed with a smart 4mm radius, the range is complemented with co-ordinating splashbacks and upstands. By Design worktops can be cut to the length required to minimise waste and provide a high quality finish and simpler installation.

## COMPACT & SOLID SURFACE WORKTOPS

**Maia®** designer worksurfaces are both stylish and durable, representing a truly innovative solid surface alternative to the high cost and inherent drawbacks of natural stone. With colours inspired by the very latest in kitchen designs, all Maia® worksurfaces are heat resistant, impenetrable to dust, dirt and bacteria and are very easy to clean. Available in a variety of modular options, there is no limit to the flexibility of Maia®'s comprehensive worksurface range.

**Minerva®** provides a practical and solid pure acrylic kitchen worksurface, manufactured using state-of-the-art technology. Delivering a luxurious appearance, cool pleasing touch and robust performance day in, day out. With a 10-year guarantee against manufacturing defects, style is not compromised for quality. Imperceptible, seamless joints with full design flexibility. Delivered ready for installation.

### Maxtop

Setting a new standard within the kitchen industry, Maxtop is Europe's leading manufacturer of modular quartz worktops. Made from solid quartz, Maxtop offers all the benefits of natural stone – strength, exceptional durability and a capacity to withstand high temperatures, along with a beautiful, stylish finish but at a more affordable cost. Unlike heavy stone worktops, Maxtop's unique honeycomb core makes it easier to handle and install.

### Bushboard M-Stone

This takes quartz worksurfaces to a new level, combining luxurious looks, excellent performance and affordability. Available in a perfectly formed palette of six popular colours, M-Stone will grace any contemporary, modern or traditional style of kitchen. It can be tailored on site to perfection, as the 20mm solid material is engineered to combine the beauty of stone with design freedom and installation ease. With no templating, waiting or fuss it's the future of quartz.

## SOLID WOOD WORKTOPS

### Tuscan

Crafted from the finest quality hardwoods, Tuscan Solid Wood Worksurfaces combine timeless elegance of timber with the durability of a high performance worktop. From the luxurious exotic tones of Walnut or Iroko to the modern classics of Oak and Country Beech, Tuscan worksurfaces provide a beautiful solution for both classic and contemporary interiors. In addition pre-oiled Oak worktops in clear or stained options provide a practical solution that minimises installation time and offers a chic colour palette.

Tuscan Fossil Oak

Tuscan Chalked Oak

## DEKTON, SILESTONE & GRANITE WORKTOPS

### Dekton

Introducing an exciting new product in a range of on-trend colours and finishes. Dekton employs ultra-compaction technology, similar to the metamorphic change in natural stone, creating a product with zero porosity, and lacking micro-defects and weak spots. With high flexural strength, it can be installed in thinner material over greater spans. It is entirely stain-proof and it never needs to be sealed, making it a low maintenance surface that is easier to clean and highly water-resistant. It also has the highest scratch resistance on the market so a slip of a knife won't damage Dekton but we'd recommend using cutting boards to protect your household utensils.

### Silestone

As the market leading brand in quartz surfaces, Silestone offers beauty in a wide range of colours, extraordinary textures and outstanding properties. A compound made up of 90% natural quartz, it is extraordinarily hard and resilient. Silestone comes with the highest quality guaranteed: Cosentino offers its consumers a 25-year warranty on Silestone kitchen worktops as they operate with the most demanding quality controls during manufacture.

### Granite

The original luxury kitchen worksurface, granite is not only a naturally beautiful but a naturally very resilient material which is ideal for kitchens. Each granite worktop is unique with the exact colouring and figuring not found in any other piece of stone so you can be sure that your worktop will be as individual as the rest of your home. Granite is resistant to scratching and can withstand temperature changes, but requires a little more maintenance than man-made surfaces. Regular cleaning and sealing helps to retain its beauty.

## WALL TILES

Select wall tiles that will add colour, texture or pattern to your kitchen to complete the look.

### Arles

A pretty collection of glazed wall tiles in a delicate palette of muted tones, suited to contemporary and classic styles. Arles is available in four plain colours and three melanges of mixed vintage decors.

### Poitiers

These slim brick tiles feature an undulating surface and glass-like glazes in on-trend colours like Azure Blue and Rose Pink for an opulent handcrafted look with a modern twist.

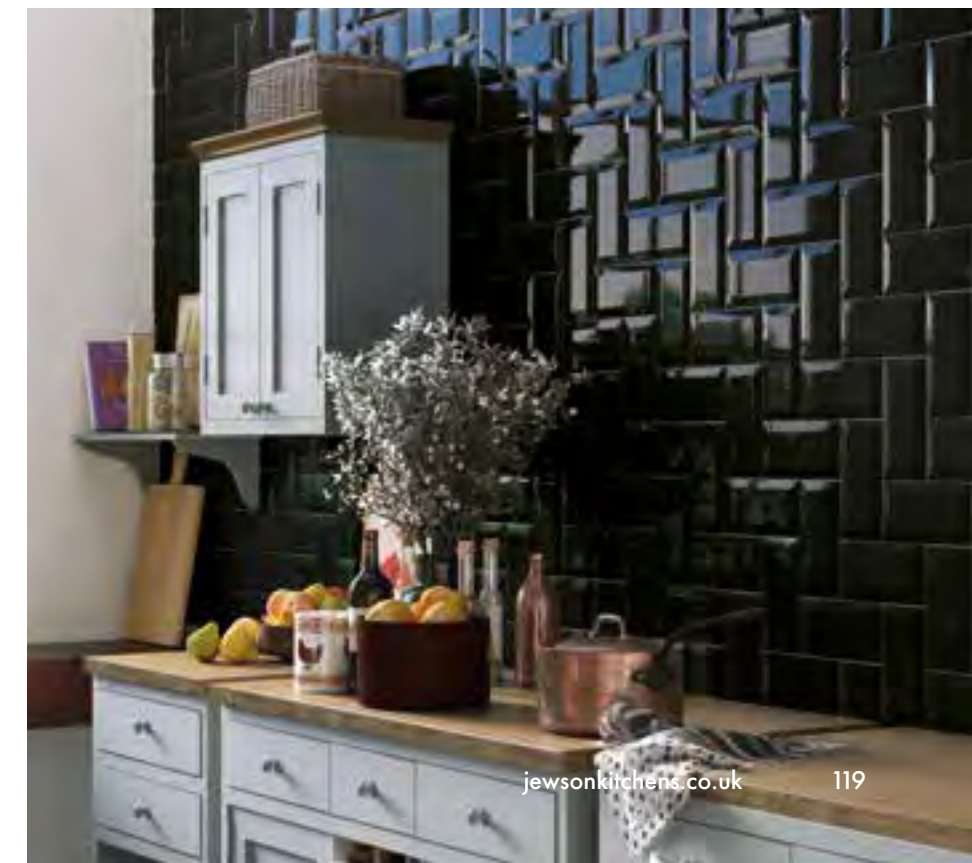

### Metro Brick

Classic bevelled brick tiles are as popular as ever. Add some creativity with contrasting grout, a band of contrasting colour tiles or an unusual tiling pattern.

Wall Tiles

## FLOOR TILES

Create a feature area with a bold pattern or opt for soothing tones with these great porcelains that mimic the natural hues of wood and stone – all with the robustness and minimal maintenance of floor tiles.

### Havana

A neutral take on the popular statement pattern tile. Use alone for an elegant feature or mix the designs and plains for a harlequin pattern in on-trend blues and greys.

## FLOORING

### Engineered Wood Flooring

Our collection of engineered wood flooring offers a beautiful range of stunning surfaces and finishes to suit both traditional and contemporary kitchens. With a broad choice of surface textures, finishes and colours including fashionable greys, smoked oaks and herringbones, you can add your style and elegance to any interior.

### Vinyl Flooring

Vinyl flooring is the fastest growing flooring on the market. It offers a great alternative to traditional tiling, is quick and easy to install, durable and water resistant, so perfect for your dream kitchen.

With plenty of 'real wood' looks to choose from, Malmo™ Senses Registered Embossed luxury vinyl flooring replicates the look and feel of real wood like never before. With the texture perfectly in line with the visual pattern of the woodgrain, it combines the beauty of wood with the durability of vinyl.

Malmo™ luxury vinyl flooring offers a colour palette that includes classic oak through to on-trend greys and travertine and offers a high performing flooring option.

### Laminate Flooring

Offering laminate flooring for sophisticated tastes, our selection includes everything from designs that look and feel like a real hardwood floor to decorative tiles. Using the latest technology to create an authentic surface structure the range offers wood and tile effects across a spectrum of light to dark tones. Selected ranges also feature a moisture resistant system making them perfect for use in kitchens.

**VELUX®**

## ROOF WINDOWS

A healthy indoor climate with plenty of daylight and fresh air is essential to our well-being and comfort. We spend up to 90% of our time inside of buildings, whether at work or at home, but how often do we talk about the indoor climate?

VELUX® gives you a choice of daylight solutions for all room types and needs. This includes products for controlling daylight, heat and ventilation.

People usually think bi-fold doors will bring in enough daylight into their extension project. However, doors in an extension tend to be further away from your original room meaning natural daylight, even on the brightest of days, can't penetrate very far into your home which can make the original space feel gloomy. With VELUX roof windows you can bring daylight deeper into your home, making both your original space and your extension feel so much brighter.

### Pitched Roof Extensions

If you're extending a living or dining space, and you want it to be light and airy and have control at your fingertips, then VELUX INTEGRA® is the ideal choice. INTEGRA® is perfect for out of reach areas, opening and closing at the touch of a button and even includes a built-in rain sensor.

### Flat Roof Extensions

The kitchen is the heart of the home, so you'll want to have plenty of daylight to create a bright and pleasant environment within your flat roof extension. The VELUX flat roof window range offers solutions from curved glass to flat glass, from 0° to 15°.

**JW JELD-WEN**

## TIMBER PATIO DOORS

Make an entrance with a wide range of timber patio doorsets from JELD-WEN. Our range offers versatility to meet the demands of the most challenging projects, and investing in good quality timber products means they will still look beautiful years after installation. Remember to select a product that enhances the property and keep a consistent theme throughout by choosing a design that complements other external woodwork, such as windows.

If space is restricted we have a wide range of standard sized doorsets to cater for all tastes and budgets, whilst our made to measure service is also available on selected products.

# CONDITIONS OF SALE KITCHENS

Our conditions of sale are designed to help ensure the planning of your new kitchen goes as smoothly as possible. If you have any further queries about our service or require a full set of our conditions of sale, please contact your local showroom.

A design fee may be charged when you book an appointment. This will be deducted from the final balance. Once you have accepted the estimate, we'll confirm the expected delivery and installation dates.

**Your kitchen is unique to you:** Each kitchen is made to order. The illustrations, drawings and dimensions in our catalogues are intended as a guide only. When your estimate is produced, it is your responsibility to ensure that the information and specifications it contains meet your requirements.

**Building work:** If you are having any building work carried out as part of your kitchen project, this must be completed before we can undertake a site visit. New kitchens cannot be installed in a damp or freshly plastered space.

**Timescales:** The time needed to plan and install a kitchen varies from home to home. The ordering timescales we provide are a guide only. We will keep you informed of the progress of your kitchen.

**Delivery:** Your kitchen units can be delivered to your local branch for either collection or delivery (additional charges may apply). If you choose to have your units delivered – you will be advised of the delivery date by your Design Consultant. This may involve you having to store them for a day or so until installation commences. Your appliances, accessories and worktops may be delivered separately during the week of your kitchen installation.

**From date of delivery:** Customers have 5 working days to check off and report shortages/damages, after this point they cannot be accepted.

**Installation: Installing a kitchen is a skilled job. Whilst we will endeavour to support your fitter and get your kitchen complete during the planned installation period, remedial work may be required. Your fitter may make several return visits to your home in order to complete your kitchen.**

**Specialist worktops:** To ensure a perfect fit, specialist worktops such as Granite and Corian are fitted after the main kitchen is fitted. Lead times for specialist worktops can range from two to eight weeks depending on the material chosen.

Once the specialist worktops have been manufactured, the specialist installer will return to fit them.

**Payment: Non credit account customers are to pay a 35% non-refundable deposit on acceptance of our estimate.** The balance will be payable two weeks before the delivery day. We accept payment by Switch, Delta, Mastercard, Visa, cash or cheque. Payment for 48hr/10 Day painted kitchens to be made in full at time of purchase.

Prices are valid for 30 days from the date shown on your estimate.

**Colours and designs:** Due to photographic and printing processes some colours may not be a true representation of the product. Please see sample for actual colour. It may be necessary for us to change designs and specifications without prior notice.

**Natural materials:** Wood furniture that uses wood components or wood veneers will display natural grain and colour characteristics that may vary from what is featured in showroom displays and photographs. We cannot supply specially matched components.

**Granite and other naturally occurring stone worktops** will also display colour variations and may not match shop-floor samples exactly.

**10-year guarantee:** Our kitchen furniture shown in this brochure comes with a 10-year guarantee. For a full copy of our guarantee, please contact your local Showroom.

### Kitchen care instructions

Our kitchens are for use in a domestic kitchen environment only. Please note your guarantee may be adversely affected if used for non-general domestic environments. With the appropriate care and maintenance our kitchens are designed to provide many years of reliable service.

### General kitchen care

If using glass cleaner to clean your glass doors be careful not to damage the finish of the door and cabinet parts while cleaning. Do not spray glass cleaner directly on to the glass or cabinet parts as this may discolour the finish of your kitchen cabinets. Instead, spray a small amount of cleaner onto a lint free cloth or paper towel then wipe the glass.

Always wipe off excess moisture and be careful with extreme heat/steam sources, such as kettles, ovens and toasters. It is recommended that these heat/steam sources are not placed directly under wall units when they are in use; they generate a higher

level of heat and moisture than is often appreciated and can quickly and easily lead to damage of the furniture.

Don't open the door of the dishwasher immediately after the programme has ended, as exposure to heat and the high humidity increases the risk that the worktop or door may absorb moisture and swell.

**As with all kitchen furniture the most common problems found occur as a result of excessive or prolonged exposure to heat and/or moisture. Always ensure that water is not left around sink areas as damage caused as a result is not covered by the guarantee. Never overload drawers or shelves.**

**Please note that after a period of time it is quite normal for the colouring of kitchen units to mellow in colour. This is not a manufacturing fault and is a result of exposure to light. This means that any additional parts subsequently ordered for your kitchen, or supplied as replacements under warranty may not be an exact colour match.**

The colour of doors and drawer fronts may appear mismatched in colour. This apparent mismatch is sometimes the effect of differing light conditions within your kitchen, (known as metamerism). To check your doors and fascia you should place them side by side in natural daylight for comparison.

### Care for solid wood and/or veneered kitchens

Dust kitchen cabinets with a soft lint free cloth. You can dampen the cloth slightly with water or a spray-type dust remover. Do not spray directly on to the kitchen furniture. Wipe dry all surfaces after cleaning. Avoid any agents that contain ammonia, alcohol, bleach or an abrasive.

Clean up spillages immediately using a damp cloth and mild detergent if necessary. Wipe dry with a clean soft cloth. Don't forget to wipe under the base cabinets and the edges of the cabinet doors.

Never use strong detergents, soap pads or steel wool on your kitchen cabinets. These harsh abrasives will mark the finish. Additionally, we recommend that you avoid the use of paste wax and polishes as the build up is difficult to remove and can leave a residue.

Avoid excessive, prolonged exposure to direct sunlight, high temperatures and high humidity as

these can cause damage to the finish of your cabinet.

### Care for laminate, melamine and vinyl kitchens

Periodically clean the interior and exterior surfaces of the door using a soft, damp cloth. Wipe dry all surfaces after cleaning.

Use only cleaning agents that are intended for the materials used in your kitchen. Avoid any agents that contain ammonia, alcohol, bleach or an abrasive.

Clean up spillages immediately using a damp cloth and mild soap if necessary. Wipe dry with a clean soft cloth. Don't forget to wipe under the base cabinets and the edges of the cabinet doors.

Never use detergents, soap pads or steel wool on your kitchen cabinets. These harsh abrasives will mark the finish of your kitchen cabinets.

Avoid excessive, prolonged exposure to direct sunlight, high temperatures and high humidity as these can cause damage to the finish of your kitchen furniture.

### Care for hand painted kitchens/ paint to order kitchens

It is important that all painted surfaces are handled with care. Our painted products are finished to a very high standard and if treated with the care and attention required they will provide many years of reliable service.

With all of the ranges, the kitchen units are a piece of furniture, and should be treated as such. Treat the kitchen doors with the same care and attention as you would any other hand-finished/painted item of furniture in your home.

The kitchen should be cleaned using a clean lint-free damp cloth with mild household detergent. Any form of furniture polish or other cleaning products should be avoided. Never use any abrasive pads or abrasive cleaners on the furniture. Spills and condensation on either the carcass or the fascias/panels should be cleaned and dried immediately.

### Installation instructions

Installation is only to be carried out by a competent person. Check the suitability of the wall/ceiling before installation commences.

Check that the fastening devices will withstand the forces generated.

**FAILURE TO FOLLOW THESE INSTRUCTIONS MAY INVALIDATE YOUR GUARANTEE.**

## SUSTAINABILITY & ENVIRONMENT

The way we build, refurbish, live and work in our buildings has a vital role to play in saving energy, reducing our carbon emissions and affecting our impact on the environment.

The challenge is simple; we need to use less energy and choose our materials more wisely. We will then create less carbon dioxide when we manufacture, build and live in our buildings.

Our key kitchen suppliers are chosen with sustainability in mind and we are proud to offer products with environmental accreditations to back up their sourcing policies.

### *SYMPHONY GROUP*

Symphony were the first in the industry to gain accreditation and maintain a full FSC® chain of custody for all our furniture. The trademark indicates that wood used comes from a well managed source in accordance with strict environmental, social and economic standards. We are committed to supporting international systems of timber from independently verified, well managed forests. We were also the first to gain BS EN ISO 14001:2004 which endorses our activities to limit the impact on the environment.

The Symphony FSC license code is FSC C008501.

### *JELD-WEN*

JELD-WEN aspires to be the industry leader in environmentally responsible practices and products. We have committed ourselves to more sustainable business practices and environmental stewardship. This affects every aspect of our organization and governs our approach to energy efficiency, air and water emissions and indoor air quality. At JELD-WEN, we believe that a healthy environment and healthy business practices go hand-in-hand.

JELD-WEN has a sustainable, renewable timber sourcing policy and are extremely proud to have received FSC® (Forest Stewardship Council®) and PEFC™ multi-site chain of custody certifications both dedicated to promoting the responsible forest management. Their doors also meet the EU Timber regulations, effective March 2013, which aims to prevent the trade in illegal harvesting of timber into the European market.

The JELD-WEN FSC license code is FSC® CO106039 and PEFC license code is PEFC/04-31-1264.

### *INTERNATIONAL DECORATIVE SERVICES*

When buying from IDS you can be confident that you are trading in goods that are from legal, ethical and sustainable sources. 100% of our wood based products are EUTR compliant and the vast majority are either FSC® or PEFC. We have held Chain of Custody since 2005 and offer certified FSC® or PEFC options across each of our main product areas, including flooring, worktops, panel products, wall panelling, laminates and compact.

The IDS FSC license code is FSC® A000503 and PEFC license code is PEFC/16-44-002.
